NEVER FAILING REMEDY!

Holloway's Ointment.

CURE OF THIRTEEN YEARS SUFFERING

Copy of a letter from Mr Thompson Chemist Liverpool dated August 18th

To Professor HOLLOWAY

Sir —I am enabled to furnish you with a most extraordinary cure effected by your Ointment and Pills which has astonished everybody acquainted with the sufferer About ten years Mr W Cummins of Saltney Street in our town was thrown from his horse whereby he received very serious injuries he had the best medical advice at the time and was afterwards an inmate of three infirmaries yet he grew worse and a most malignant running ulcer settled in his ankle which so completely crippled him that he has been with or crutches for nearly 10 years recently he began to use your Ointment and Pills which have now healed the wound restored the limbs and enabled him to discard his crutches so that he can walk with ease and with renewed health and vigour

(Signed) J THOMPSON

EXTRAORDINARY CURE OF A DREADFUL DISEASE WHEN ALL MEDICINE HAD FAILED

Copy of a letter from Mr Hall Draper of Keswick dated March 21st 1852.

To PROFESSOR HOLLOWAY

Sir —Your Ointment and Pills have been one of my chief blessings for they have completely eradicated an inveterate humour over the body and limbs I had the advice of several eminent surgeons many of whom pronounced my case incurable At length I tried your Ointment and Pills and without exaggeration of the warmest gratitude I feel bound to say that by perseverance in their use my health was quickly restored and the disease entirely expelled from my system

I have lost a child from a similar complaint who I firmly believe had her case adopted your medicines she would have been saved also I shall be happy to testify the truth of this to any one

CERTAIN REMEDY FOR SCORBUTIC HUMOURS—ASTONISHING CURE OF AN OLD LADY SEVENTY YEARS OF AGE AFTER A BAD LEG

Copy of a letter from Messrs Warren and Co Chemists Bath

To Professor HOLLOWAY

Sir —Among the numerous cures effected by the use of your valuable medicines in this neighborhood we may mention that of an old lady of the village of Preston about five miles from this city She had ulcerated wounds in her legs for years and latterly these increased to such a frightful extent as to defy all the usual means of healing rapidly getting away under the sloughing process she endured so terrible was her distressing condition that medicine to your Ointment and Pills was the last resource to which her friends were enabled to refer in their fearful case and it is but justice to state that she received a perfect cure

We have ourselves been great witnesses of the effect upon so old a person she being upwards of 70 years of age We shall be happy to answer enquiries as to the authenticity of this fearful case either personally or by letter

A private in the 14th Police Force also has been perfectly cured of an old scorbutic affection of the face after all other means had failed He says that it was entirely by the use of your Ointment and speaks loudly in its praise

We remain dear Sir

Yours faithfully

Bank Note Protection.

A new plan to prevent Fraud by the Alteration of Bank Notes from low to higher denominations.

The Notes are divided into two classes

CLASS FIRST embraces the denominations of *one two three four* and *five dollars* These are distinguished by strips at the *right* ends of the notes engraved of *geometric lathe work* and running through the centre the number of strips corresponding with the amounts of the notes Thus a one strip denotes one dollar two strips *two* dollars and so on and upon the centre of these strips a large figure readily seen, designates the denomination of each note In this class of notes these are no borders on the *left* ends—which are each filled by vignettes and other work The President's name will be placed under and near the second strip work on all notes of this class and that of the Register or some other name more thus protecting the strip work from alteration—no space being left for adding another strip either above or below the signatures

CLASS SECOND embraces the denominations of *ten twenty fifty one hundred* and *five hundred dollars* On this class the whole arrangement is reversed The strips of lathe work (different in number and upon the other class of notes) commence at the *left* ends and run towards the centre the vignettes and other work being upon the *right* On this class the Cashier's name is placed under the strip work and that of the Register directly over it their names being separated by one strip on a ten dollar note by two on a twenty three on a fifty four on a hundred and by five strips upon a five hundred dollar note *presenting a perfect contrast between these sets of notes*

Any person acquainted with the plan can detect a counterfeit by any alteration of any one of these notes in either class from the denominational number The plan is a simple one and is at once comprehended almost at a glance from an examination of the notes, although so many lines are required to describe it in words the picture of description is very short and the eye only under stood and remembered The inventor JAMES A WALKER Esq of New York has secured his invention by caveat entered at the Patent Office at Washington and has made an arrangement with DAVID MORRIS WRIGHT & CO exclusively for its use upon Bank Notes

Besides the protection against the *alteration* of denominations of Bank Notes it affords to banks and the public by this plan a very great security against *counterfeiting* as is afforded by the free use of the *geometric lathe work* of which the borders are composed and which cannot be successfully imitated either with any other *machine* or with the graver

Ladies wanted upon by Mrs Caroline D Foster at the above place

The following certificate from Dr John C Warren of Boston was given 16 years since but will last forever

BOSTON January 7 1836

Having had occasion to observe that some persons afflicted with Hernia have suffered much from the want of a skillful workman in accommodating Trusses to the peculiarities of their cases I have taken pains to inform myself of the merits of Mr J F Foster to supply the deficiency occasioned by the death of Mr Heath After some months of observation of his work I am well satisfied that Mr Foster is well acquainted with the manufacture of these instruments and ingenious in accommodating them to the variety of cases which occur I feel called upon to recommend him to my professional brethren and to the public as a person well fitted to supply their wants in regard to those important articles

JOHN C WARREN M D Boston

CERTIFICATE The following certificate is from Professor Stuart, of Andover Theological Seminary

The undersigned having occasion to employ Mr J Frederick Foster of Boston in making and fitting Trusses for the relief of Hernia takes great pleasure in recommending him to the favorable notice of such persons as may be afflicted with that and similar complaints Mr Foster's success in the manufacture and adapting them to the body giving ease and comfort to the wearer surpass (so far as our experience goes) any other manufacturer of the article

The numerous testimonials which he has received together with the recommendations of that eminent surgeon, Dr J C Warren as a sufficient guaranty for all who may favor Mr F that his instruments will give entire satisfaction and he will satisfy all reasonable demands for an equitable compensation M STUART

WILBOR'S COMPOUND OF

PURE COD LIVER OIL AND LIME.

A CURE FOR CONSUMPTION COUGHS COLDS ASTHMA BRONCHITIS GENERAL DEBILITY AND ALL SCROFULOUS HUMORS

THE Proprietor has succeeded (from directions of Professor Jonas) in rendering the Oil at all times perfectly tasteless, and in such a manner that this article (or the clear oil the following case by Dr Holmes is sufficient to convince the most skeptical The young lady was twenty four years of age

Her disease was one of unusual virulence which had been expected for some months in the course of a few months fatally The upper part of both her lungs were filled with tubercles and in some places were beginning to soften The case was evident by a bad one The treatment of Cod Liver Oil was at first used but without much improvement The Phosphate of Lime was then administered with the oil and the result as in the case of many others was not apparent The patient was rapidly getting worse

CAUTION —On account of the great reputation of this Compound for all Lung complaints the subscriber would caution the afflicted against using any except that manufactured by him as he has the only recipe in the United States for combining the pure Oil with lime in a proper manner There fore as you value your health purchase none except that manufactured by

Safety and Great Economy.

AN opportunity is now offered to all who may concern to secure the exclusive right of manufacturing using and vending, in States and Counties,

IRVING'S

Circulating Safety Steam Boiler,

for Stationary Engines Locomotives Marine Engines on River Lake and Ocean Steamers, &c —

The advantages of the Boiler over all others now in use are,

1st—ENTIRE SAFETY FROM EXPLOSION, being no more liable to explode than an open cauldron

2—Less than ONE THIRD the amount of fuel is required to generate the steam obtained by other boilers of the same power

3—The cost of construction is reduced ONE HALF

4—They occupy but ONE THIRD the space of other boilers and may be applied in any engine now in use

5—The expense of Furnace Grates will be incalculably lessened by the small amount of fuel required, and the manner of using it

The Company GUARANTEE the reality of the above advantages Their conclusions are based on PRACTICAL RESULTS many of these Boilers being now in use and about this city The inventor has but just succeeded after years of application to bringing this valuable invention before the public It stands alone and independent in its merits and if it has the qualities claimed which are undeniable the public will at once acknowledge its superiority over any other motive power—

Sabbath Bells

That offspring of ringeming fire,
And Man's creative hand,
High from the summit of the spire
Shall murmur o'er the land

* * * * * * * * *

All that is changeful in a breeze down
O suffering man is
Shall mourn it from its mount crown —
Or be it joy or woe —Sprague

FLEETLY fades the daylight fair
Shadows of the night are falling,—
Through the quiet Sabbath air
Many sweet-toned bells are calling.

From the turret lifted high,
With a mellow cadence thrilling,—
From the little belfry nigh
All the air with music filling.

Clear and joyous —solemn,—slow—
Sound their voices, ever varying —
Grave to gay or soft, to low—
Sweetly, without discord, marrying.

Now, a full sonorous peal
Suddenly the silence shiv ring,
With a shock the pine groves feel,
Through their topmost branches quiv ring.

Now, with mellow throbbing, beats,
Echo, beyond echo, living,
Till the distant cliff repeats
Snatches, of the sweet replying

Or with all their liquid chimes
Blending in a chorus golden,
Dainty as the rarest rhymes,
Linked in numbers quaint and olden

Something of the Sabbath peace
Dwells forever in their ringing,
Bidding earth born trouble cease,
Rest unto the weary bringing.

And a thousand moving spells,
Born of home —of grief,—of pleasure —
Life hath wedded to the bells,
Till they strike a charmed measure.

With their changeful magic chords,
Bringing all the past before us,
As forgotten balled words,
Hunt the chance awakened chorus

Distant, dreamlike, memories start,
With a fresh enchantment borrowed
From the trusting childish heart
That have never feared or sorrowed

Strengthening to remembrance fast,
As the bells with ceaseless ringing,
Weave the story of the past,
Every voice its record bringing.

Till the homestead as of yore,
Stands amid its ample meadows,
And the household group once more
Gather in the evening shadows

Yet amidst the lightest strain,
Memory through her compass ranging,
Strikes a sudden knell of pain
Joy to desolation changing

For within that Eden bower
Where our life of love was centered,
True to his appointed hour,
The destroyer Death, has entered

And the sorrow stricken soul
Sits in silence, darkly brooding
O'er the heavy waves that roll,
All its peace with anguish flooding.

Till those jubilees and moans
(Fit expounders of life's story)
Change their tender, wailing tones,
For a prophecy of glory

Pointing to a city bright
Of whose radiant pure perfection,
(God himself its constant light)
Mind of man hath no conception

Where no weary spirit yearns
For the peace its childhood cherished,
Where no memory earthward turns
Mourning for the loved and perished

But a perfect bliss alone
To the ransomed spirit given
Yerks the woes to mortals known,
From the habitants of Heaven

In the crowded city where
Want and woe, have made their dwelling,
Of the quiet country air
And the sunny hillside telling,

On the dullest human ears
With familiar cadence falling,
From their childhood's guileless years,
Peace and hope and strength recalling,

Whispering of the lost, who bore
More of Heaven than earth about them,
And who left on time's wide shore,
Hearts so lone, and drear without them,

By these many pen ent spells
Made the world's persuasive teachers,
Often have these Sabbath bells
Reached beyond the living preachers

JANET HALE.

IMPROVE YOUR FRUITS

It should be the duty of every farmer, every gardener in fact every body in Maine to turn their attention occasionally to the cultivation of the different varieties of fruit. We should endeavor to improve those that are not first rate, and increase the culture of those that are already first rate There has, it is true, been much advance in this pursuit within the last twenty years, but with all that we have hitherto done, we do not *yet* know the full capacity, the actual powers of our State in its length and breadth in regard to fruit growing Many researches ought to be made in regard to the introduction of all good fruits that have not yet been introduced and that promises fair success.

We are rather deficient as yet in the nut bearing trees But very few are raised among us and yet the filbert and the shelbark, or shagbark as it is some times called will grow abundantly—especially the filbert, which is a native. Why, then, are there not more of them cultivated?

There is a French species of walnut, called dwarf walnut tree, which it is said will mature freely among us. It is called the *Juglans Fraxturiens* in some of the nursery catalogues We do not know whether they have been tried much by our fruit growers

There might be many more of different kinds introduced and experimented upon in a prudent and quiet way, which might be productive of much good. Indeed, whether the experiment succeeds or fails, it will be of service in eliciting information on this or that particular subject. Every one who can afford the leisure and the labor will cash and take the subject and experiment upon it faithfully and the results made known, the people would be wiser and the country richer in a few years.

BALTIMORE, May 1.

New Orleans papers of Monday contain dates from Galveston of the 21st ult. The survey of the Galveston Railroad had been resumed and a portion of the Harrisburg and Colorado Railroad had been opened, amid great rejoicing

Mr. Henry Sheldon, of New York, has been elected President of San Antonio and Mexican Gulf Railroad.

The Austin State Gazette of the 16th states that the Indians have become decidedly hostile and have committed several daring depredations on the frontier.

On the 27th March, Major Sibley had some difficulty with the Macoes, and recently a party of Wichitas having come into Fort Belknap, were detained as prisoners At night the Chief, after murdering his own wife and child, rose upon the guard, and aided by nine of his warriors, succeeded in killing the sentinel on guard and wounded another soldier In the affray the Chief was killed, but all his warriors escaped.

The Austin American of the 13th says that people continue to leave for the gold diggings on the Upper Colorado, but that none have returned who have given anything like a satisfactory account of the gold prospects.

WASHINGTON, May 1

The following appointments have been fully determined on, and will be made to-morrow :

Governor Seymour of Connecticut, Minister to Russia

General Gadsden of South Carolina, Minister to Mexico

General Dix, Minister to France

The article in the *Union* on Friday, on Gen Lane's movement in New Mexico, did not express the views of the government on that matter The President is so far dissatisfied with Governor Lane's *coup d'etat*, that he has determined to supercede him immediately

IMPORTS AT NEW YORK The value of foreign merchandise entered at the Custom House for the week ending Saturday last, amounted to nearly five millions of dollars The cash duties for the same time amounted to $1 036,024 The Times says the proportion of General Merchandise, as compared with Dry Goods fabrics, was larger than it has ever known to them to be in a single week, the aggregate value being $3,324 321, against $1,464,936, in Dry Goods The import of foreign Dry Goods for the month of April, 1853, as compared with the same month in 1852 shows an excess of $1,475,980, or 39 per cent. From the first of last January over the same period in 1852, the excess is $10 692,000, or 49 per cent,

HOW WE GROW — In 1783, our territorial limits took in an area of one million square miles, or six hundred and forty millions of acres This was the extent of Uncle Sam's farm when he set up for himself Now his possessions embrace three millions four hundred and twenty thousand sq miles This is a pretty smart accumulation for seventy years — By the treaty with France in 1783, we acquired one million of square miles, by the cession of Florida in 1832, thirteen thousand square miles, by the addition of Texas, New Mexico and California, one million four hundred thousand square miles When we get Canada, Cuba, and another slice from Mexico, we shall have pretty near room enough, though some of the boys are in favor of pushing the stakes out still further, so as to take in Ireland, the Sandwich Islands, all of Mexico, and then go on to Concord —Boston Mail

DISASTER — Capt Rogers of the steamer Governor which arrived about 11 o'clock this morning, reports having seen on Monday last, about 5 miles N E of Cape Cod a vessel 90 or 100 tons, lumber loaded, bottom up—she hailed from Bangor but her name could not be ascertained. Her yawl boat was along side, full of water, which was taken on board the Governor and brought here The crew had either been taken off or had perished It is probable she was upset in the gale of Sunday night It is supposed it is the "Marmora" —Mer of 4th

☞ The stockholders of the Penobscot Mutual Fire Insurance Company at their annual meeting on Monday, chose the following Directors

Josiah Towle Sylvanus Rich, E L Hamlin, R S Prescott L L Morse, Sidney Thaxter and Joseph Bryant The Directors made choice of Josiah Towle for President and B Plummer, Jr Clerk and Treasurer

From an interesting report recently made to the Californian Legislature, it appears that there are now in that State about 22,000 Chinamen The capital invested and owned by the Chinese in the State is one million of dollars—the Cooley system has almost wholly ceased It is further stated that the trade with China rapidly declined from last spring when the excitement against the Celestials was fanned into a flame by the manifesto of Governor Bigler—that the emigration was checked by the same cause—but that both are now reviving

N. E METHODIST CONFERENCES There are at present six Conferences within the limits of New England, averaging something over 100 churches and preachers to each, besides nearly 200 in the Western parts of Connecticut Massachusetts and Vermont, that are connected with conferences principally located within the State of New York, making in all about 800 preachers and churches in New England, and embracing a membership of 80 000 This enumeration does not include the local preachers, of which there are about 550.

☞ The Emperor of France has extended an invitation to the Bonapart family of Baltimore, to pay a visit to the Imperial dominions — Young Jerome Bonapart, who now belongs to the U S Army, has obtained an absence of six months, and will soon leave for France He is a grandson of the brother of Napoleon the First

WASHINGTON, May 3

The Navy Department has received a dispatch from Commodore Perry at Ceylon, with the flag ship Mississippi, on the 10th of March all well, and will sail soon for Macao. Also received advices from Commodore Stringham of the flag ship Cumberland off the coast of Italy.

PHILADELPHIA, May 2.

The Governor's warrant for the execution of Spring on the 10th of June was read to the condemned this afternoon, manifested not the slightest concern, but asserted his innocence and the guilt of his son.

NEW YORK, May 2

The schooner Samuel Clark, from Port au Prince, brought a variety of articles from the Emperor Soloque, for the World's Fair, among them a single piece of mahogany weighing nearly three tons

Accounts from Western New York and from the wheat growing region of the South, speak in the most encouraging terms of the prospects of the grain and grass crops Wheat is said to look remarkably promising and should no mishap occur, an unusually large yield must follow.

Mr. John Smith, an aged citizen of Barrington N. H., was thrown from his wagon on Sunday, 24 ult., when he on his way from meeting, and so severely injured as to cause his death the next day.

ABOUT LOBSTERS.

As the season for enjoying the luxury of lobsters is at hand and as the question is often asked, why some are made sick by eating them, I would say, first that it may be caused by eating to much at once, and secondly, by eating lobsters kept too long after boiling. But from experience and observation, I am satisfied that the principal cause is imperfect boiling All who wish to preserve the lobster as a luxury, should be very cautious in eating them, for if once made sick by them, the result would be almost, if not entirely, fatal to their fondness for them afterwards.

While upon the subject of lobsters, I will, for the satisfaction of the curious, drop a few ideas with regard to their shedding their shell, a fact not generally known It is supposed by some that this change. (viz, shedding their shell) happens once a year, and by others, once in a certain number of years—neither of which is correct The fact is, this change is indispensable to their growth, and it is therefore reasonable to suppose that young lobsters undergo this change oftener than the old It occurs generally in dog-days, at times when their growth requires it, until they attain their full size, at which time they retain their old coat. The circumstances attending the change are as follows —As the time approaches for the lobster to undergo this change (the old shell being too close,) nature commences the formation of a new shell inside of the old, at the same time the old shell begins to change its appearance, resembling that of decomposition

A few days before leaving the old shell, the lobster secures itself in the mud, or under a rock, where it remains in a safe, though helpless state, several weeks, being taught by instinct to guard against enemies The shell finally opens on the back by means of a seam, which enables the lobster to disengage his body But what seems a mystery to some is, his leaving the old shell of his claws, for the meat of the large claws of a large lobster must pass through a hole not larger than a sixpence But the fact is, the flesh undergoes a change which enables it to be put in any form without difficulty As soon as the lobster is entirely free from the old shell, he resumes his natural form, and also receives an increase in size In this situation it could be moulded into almost any form that would not produce death and kept till perfectly hard —Hence, the deformity of lobsters, many being injured while in the pulpy state And it is a fact that notwithstanding the old shell was crowded in the formation of the new, the lobster has an abundance of room, and it is several years before the shell is again completely filled This explains why all lobsters are not equally full

Another singular fact connected with the history of the lobster is thus —When it loses a claw or leg, another will come in its place — There is, however but one point from which the limb will germinate, and that is a seam near the body But what is astonishing is, that they appear to have the power of dropping their claws or legs at will, which enables them, when seized by the claw or leg and held, to drop either of those limbs, and thus make their escape —When they receive a slight injury they retain the claw or leg injured but in case of a severe wound, which renders the limb useless as well as painful, and likely to produce death by bleeding or otherwise, they immediately drop the limb and thus free themselves, from pain and danger After the limb is dropped, the blood spins out for a few seconds in a small stream, whence may be seen, not long after a sprout making its appearance similar to common vegetables If the lobster is young and thrifty, the new limb will attain the beauty of the original, but if otherwise, it will be small and not so well proportion —[Portland Transcript]

THE SANDWICH ISLANDS Considerable interest is excited in consequence of the appeal which it is stated the King of the Sandwich Islands has made to the United States for protection against the design of France The sentiment is universal among the American people the intergalty of the Islands must be maintained Situated as they are in the great Pacific highway of trade and commerce it seems vital to the interests of the American people that they shall not come under the dominion of any foreign power Many believe that the demands of the French government are unjust and her designs anything but pacific, The strong ground taken by the leading advocates of the present administration during the last presidential contest, in reference to this very question of the Sandwich Islands, indicates that the government at Washington will not be unmindful of the appeal We shall look with great interest to further development, touching this important international affair (Boston Journal)

There is no moment like the present, not only so but moreover there is no moment at all that is, no instant force and energy, but in the present The man who will not execute his resolutions when they are fresh upon him can have no hope from them afterwards, they will be dissipated lost and perished in the hurry and skurry of the world, or sunk in the slough of indolence —*Self culture*

"I DIGEST!" Such is the true meaning of the word "PEPSIN," or of the two Greek words from which it is derived. This is the significant and appropriate title of the TRUE DIGESTIVE FLUID, or GASTRIC JUICE, prepared by Dr. J. S. HOUGHTON, of Philadelphia, from the fourth Stomach of the Ox, for the cure of Indigestion and Dyspepsia. It is Nature's own remedy for an unhealthy Stomach. No art of man can equal its curative powers. It renders GOOD EATING perfectly consistent with HEALTH. See the figure of the Ox, in another part of this paper.

This celebrated medicine, skilfully composed as it is of the most healing, balsams and penetrating oils, can never fail to cure almost every affliction that could be alleviated by an external remedy Its superiority over all other liniments is proven by the miraculous cures it performs, and by the great and constantly increasing demand There has been sold within the past Year more than THREE MILLIONS OF BOTTLES, and there can be but few persons ... who do not bestow upon it the highest praise for the rare virtues it possesses Nothing perhaps since the creation of the world, has been so successful as an external remedy for all ... diseases, as this wonderful curative When applied it instantaneously diffuses itself through the whole system, soothing the irritated nerves, allaying the most intense pain, and creating a most delightful sensation Read the following remarkable cure which can be attested to by hundreds who were fully acquainted with the whole circumstance

CHRONIC ENLARGEMENT OF THE TONSILS

My daughter, when six months old was taken with a swelling in the tonsils, which grew larger and larger, till when six years old she had great difficulty in swallowing her food Every night watch was kept fearing she would suffocate The best doctors attended her but could give no relief I took her to the most eminent doctors in the East they said there was no help for her but to outgrow it. With a sad heart I returned home with her when she became so much worse that the doctors had to be called in again, they decided that the tonsils must be cut off as the only means of giving relief My wife would not consent to this and she determined to try your Liniment which gave relief the very first application and by a continued use she entirely recovered She is now ten years old and fleshy and healthy as could be desired Your Liniment is the best in use for sprains, bruises cuts, burns headache etc, and it will remove the most severe pain in a few minutes It also cured ... in my cow in a few days GEORGE FORD

DR. MORSE'S INVIGORATING CORDIAL!

FOR GENITAL DEBILITY, IMPOTENCY, INCONTINANCE OR NOCTURNAL EMISSIONS, &c The astonishing success which has attended this invaluable medicine, for *Loss of Muscular Energy, Physical Lassitude,* and *General Prostration,* or any of the consequences of youthful indiscretion, or indulgence of the passion in riper years, renders it the most valuable preparation ever discovered In fact as a remedy for the above complaints it stands unrivalled and alone There is no other reliable remedy, for any that has authentically received the sanction of the Medical Faculty The WONDERFUL VEGETABLE PRODUCTION of which this medicine is composed has been tested and its virtues proclaimed by the highest names of the faculty of London, Paris, and the chief cities of Europe, as well as by eminent Physicians in this country It is the only infallible remedy for NERVOUS, HEAD and MIND COMPLAINTS—the vessel physic so long sought for and never before found the only agent that can administer to MIND DISEASES. It will remove all nervous affection, DEPRESSION EXCITEMENT, incapacity to study or business, loss of MEMORY CONFUSION, thoughts of self Destruction, fear of insanity, &c. It will restore the appetite bring the health of those who have destroyed it by Solitary Excesses or evil practices It has been said by some that these disorders, eruptions &c., were incurable This however is not the fact It has been said by some that these disorders, eruptions &c., were incurable This however is not the fact

DR. MORSE'S INVIGORATING CORDIAL, has, and is constantly curing these complaints relieving the mental and bodily incapacity of the unfortunate sufferer as the following testimony of the author received will corroborate show

Dr Woodward of the Massachusetts Insane Hospital writes of one of his patients being cured by using this cordial, thus —It gives me pleasure to inform you that one of my patients, while in Boston procured some of your Cordial He tells me that he has not had a single emission since he commenced taking it, while before he had two or three a week. When he applied to me, sir, Dr W, I thought it hardly possible for him ever to regain his full strength I prescribed the usual medicine used in these cases in the hospital but they had no effect In the meantime he purchased some of your Cordial which has effected a cure I am sure no other medicine would I shall ever recommend it whenever an opportunity occurs

The nature of the maladies relieved by this Cordial are generally such as to leave the publication of certificates of cures unnecessary To all questions &c. CORDIAL if the question and the proprietor could produce a host of the most convincing testimony to show that the great reputation it enjoys was not accidentally obtained but firmly based upon its positive and appalling miraculous virtues To all directions &c. CORDIAL the happy parents of healthy offsprings, who would not have been so but for this ex rhaustive preparation And it is equally potent for manly dreams es for which it is recommended

THE MEDICAL JOURNALS

have not in a single instance thus has been authentical ed given their sanction to any other preparation for the above complaints It has, in many violent and dangerous cases effected radical cures after patients had been abandoned and their constitution pronounced hopeless by medical practitioners of high professional character

THE COMMON EXPRESSION

Of those who have used this Extract is—I had heard my friends highly speak of it but was one of the incredulous in regard to its merits having tried various nostrums without deriving any benefit I had almost given up in despair of obtaining relief when I received some of your Cordial I had no faith whatever of its performance—but it has I feel stronger have had no sick spell since although but a few weeks I am satisfied the half of my bottle I took will cure me

As the says—I have consulted several distinguished physicians Some said I could not be cured others prescribed this thing and that but I found I never got relief until I received some of your Cordial I must say it completely cured me

Another says—I was surprised at the effect your Cordial had Why bad I not heard of it before? It would have given me so much ease, besides years of needless and bodily suffering

CAUTION—Ask for Dr Morse's Cordial and take no other as there are worthless imitations which are creating excellent names and popularity have brought out in market Shun it shun the most delicate Female and be guarded Beware of all other Cordials (and they only this)

NOTICE Persons conscious of physical inability from causes which some may confide kindly communicate personally or by letter (post paid) to the office 78 Sudbury Street Boston (The necessary advice and medicine for the speedy removal of such disability will be safely forwarded to the writer's address

As this is offered to warrant a perfect cure in every case or take no pay

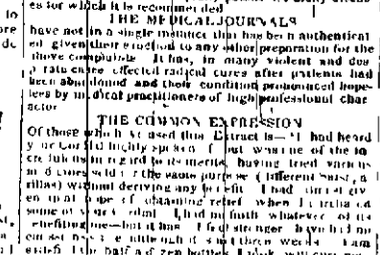
GREAT CURE FOR

DYSPEPSIA!

DR. J. S. HOUGHTON'S



THE TRUE

DIGESTIVE FLUID,

OR

GASTRIC FLUID.

Prepared from RENNET, or the fourth STOMACH of THE OX, after directions of BARON LIEBIG, the great Physiological Chemist, by J S HOUGHTON, M D, Philadelphia Pa

DIGESTION such is the true meaning of word PEPSIN It is the chief element, or Great Digesting Principle of the Gastric Juice—the Solvent of the Food, the Preserving, and Stimulating Agent of the Stomach and Intestines It is extracted from the Digestive Stomach of the Ox, thus forming a TRUE DIGESTIVE FLUID precisely like the natural Gastric Juice in all the vital powers and faculties, a complete and perfect substitute for it

This is NATURE'S OWN REMEDY for an unhealthy Stomach No act of man can equal its curative powers It combines an ALL GLOBULES, AIDS or NAUSEOUS DRUGS. It is extremely agreeable to the taste and may be taken by the most feeble patients who cannot retain either cordials or medicine without distress Beware of DRUGGED IMITATIONS. Pepsin is NOT A DRUG

Half a teaspoonful of Pepsin infused in water, will digest or dissolve Five Pounds of Roast Beef in about three hours, out of the stomach

SCIENTIFIC EVIDENCE

The Scientific Evidence upon which this remedy is based is the highest degree Curious and Remarkable Call on the Agent and get a Pamphlet Circular, gratis, giving a large amount of Scientific Evidence, from Liebig's Animal Chemistry, Dr Combe's Physiology of Digestion, Dr Pereira on Food and Diet Dr John W Draper of New York University, Prof Dunglison's Physiology, Prof Silliman, of Yale College, Dr Carpenter's Physiology, &c, together with reports of cures from all parts of the United States

PEPSIN IN FLUID AND POWDER

Dr Houghton's Pepsin is prepared in Powder and in Fluid Form—and to Prescription visits for the use of Physicians. The Powder will be sent by Mail, free of Postage, for one Dollar, sent to Dr Hough on, Philadelphia

DR. POMROY'S

Ophthalmic Ointment,

OR

EYE SALVE.

For the various diseases of the eyes and eyelids nothing has ever been discovered equal to this medicine All those painful and unsightly diseases to which the eyes are subject yield to the effective ingredients of which it is compounded Granulation of the Lids Inflammation and Discharge of the Lachrymal Glands, Humors Sties Weakness of the eyes, Watery eyes Rheum, whether acute or chronic are entirely cured by it.

After a few applications the fever and soreness are removed the swelling subsides, a fresh and healthy colour succeeds the inflamed and irritated appearance the cuticle caused by the discharges of the diseased surface falls off and the strength health and beauty are restored

When once the lids and glands are in a healthy state the eye, no longer suffering in sympathy with its surrounding parts, recovers its energies, and is able to perform its important functions without weakness or pain.

This salve is a mild preparation, designed expressly to suit the extreme delicacy which forbid the use of powerful applications to the organs of vision It may be used with equal safety in all cases and will in fallo cure Many cases of Chronic Inflammation where the sight has been greatly impaired have been entirely cured by the simple application It is believed that the salve has in no instance failed to benefit All who have suffered with sore eyes, know how painful it is to be obliged to exercise the sight long and steadily, when they are diseased They will hail with joy anything that brings a remedy This Salve Invariably soothes and comforts the aching pain, and will in a vast majority of cases effect a radical cure. Affections of the optic nerve are more difficult to manage than those of the outer surface but still by the use of this valuable salve they are greatly relieved and often entirely cured.

This Salve is also recommended for Erysipelas Chilblains Burns Cracked and Sore Lips Chapped Hands Scrofula and Sores Pimples about the Face, Piles Ulcers &c
